DBS Course

Abstract :

It is our pleasure to submit all the necessary deliverables for the Database Management Systems course. We have developed, implemented, and documented the required "Mini-Store" database, along with completing all assignments as per the course requirements. Hereunder is a detailed list of all the attached files with respective file names.

List of All Attached Files :

1. **Codes File (file):** The entire "Mini-Store" project source code, including back-end logic and database connections for running on VS Code platform
+ the assignment part one is solved in this file with their schemes and DB
2. **Shop ER Diagram (pdf):** Visual ER Diagram showing all entities, primary/foreign keys, attributes and cardinalities for the Mini-Store database.
3. **DB Exam Answers(pdf) :** Step-wise solutions to all the required examination problems .
